

INSIGG's ARTIFICIAL INTELLIGENCE LIVE CHAT

**AN EASY ADDITION
TO YOUR SALES
PROCESS**

IT'S TIME TO INCREASE YOUR WEBSITE SALES...

INSIGG's AI Live Chat will greet visitors on your website. It will engage in real conversations and convert visitors into customers.

BETTER CONVERSION

INSIGG's AI Live Chat increases a website's conversion rate by at least 24%. It provides the full functionality of a sales representative without the need for days off and holidays, additional training, or sick leave.

QUALITY RESULTS

INSIGG's AI Live Chat can seamlessly participate in human conversation. It has the same understanding of language as a human sales rep and one of the best language capabilities on the market today.

LOW PRICES

INSIGG's AI Live Chat offers your business a professional sales rep that works 24/7 for a very low price. Depending on your company needs, the cost can be as little as \$99 a month.

.. AND PROVIDE ROUND-THE-CLOCK CUSTOMER SERVICE

GET INSTANT ROI

Our AI Live Chat provides fast, courteous and relevant answers to customer inquiries. This is the key to the customer's likelihood of doing business with your company.

FRIENDLY PROFESSIONAL SERVICE

Our AI Live Chat offers professional customer service. It accurately identifies customer needs, responds in a polite manner, and oversees the fulfillment of those needs until the customer is satisfied.

WANT BETTER LEADS?

REAL-TIME LEADS

Use our AI Live Chat to identify leads in real time, pre-qualify them, and follow up with each one.

ACT PROACTIVELY

Our AI Live Chat

- knows when a visitor is on your website and can start the conversation (rather than wait for the visitor to start, which is typically the case).
- increases the conversion rate by 18%.

PREDICT TRENDS

Our AI Live Chat identifies relevant conversations, and analyzes

- buying habits,
- customer service concerns,
- user sentiment,
- consumer behaviour patterns.

WANT TO MANAGE YOUR REPUTATION?

A disgruntled customer will tell, on average, 10 friends about his or her negative experience with your brand.

INSIGG AI Live Chat can provide real-time issue resolution 24/7. Negative reviews can be managed and resolved well before they become issues.

Lay the foundation for sustainable growth by enabling the transition from a human sales team to our AI sales team.

Deliver immediate and measurable results across the key performance metrics: sales closing, customer satisfaction, and engagement growth.

HOW ABOUT SOCIAL SALES?

We will grow your social sales, create sustainable social strategy, and implement social engagement.

- Listen to conversations and respond in real time - have meaningful dialog with your prospects and customers
- Develop social strategy to monetize your social potential
- Convert social conversations into web traffic
- Help your business understand and evolve with your customer's expectations
- Increase loyalty through better customer service
